### Reference lab change

Dear valued Labcorp Kansas, Inc. client,

Starting May 1, 2023, Labcorp Kansas, Inc will begin sending reference lab work (lab test not performed on site) to Labcorp in Burlington, North Carolina. We currently send this testing to Mayo Clinic Laboratories located in Rochester Minnesota. We have strived to reduce the impact to you but there may be changes in the following ways.

- test codes
- CPT codes
- Specimen type
- Turnaround times
- Send out test pricing

We appreciate your patience and understanding as we undergo this change to our test catalog. After May 1st, Labcorp Kansas will have a PDF version of our Directory of Services available. If you would like to receive this directory via email, please contact Labcorp Kansas IT at [labcorpkansainfo@labcorp.com](mailto:labcorpkansainfo@labcorp.com).

Thank you,

Julie Simon  
Laboratory Director  
Labcorp Kansas, Inc.
